

Software Engineer with 5+ years of experience designing and building scalable, high-performance backend systems using NestJS, NodeJS, TypeScript, JavaScript, MongoDB, and PostgreSQL. Experienced in developing Microservices, RESTful APIs, GraphQL services, authentication systems, payment integrations, and real-time applications. Strong background in distributed systems, database optimization, and third-party integrations, with a passion for building reliable, secure, and scalable software solutions.

EXPERIENCE

Software Engineer
YsecIT Softwares India Pvt Ltd
• Software Engineer at YsecIT, building **YuPay**, a next-generation closed-loop wallet.
• Designed and developed backend microservices using **NestJS**, **TypeScript**, and **PostgreSQL**.
• Delivered secure APIs for **wallets**, **payments**, **KYC/KYB**, and **transactions**.
• Implemented **Kafka**, **Redis**, and **TypeORM** for scalable, reliable backend services.
• Collaborated on architecture, code reviews, and production issue resolution.
Tech Stacks: NestJS, TypeScript, NodeJS, PostgreSQL, TypeORM, Kafka, Redis, Jest, Swagger/OpenAPI, Microservices

October 2024 – Present
Bengaluru, IN

Senior Backend Engineer
AGZ Technologies Pvt Ltd
• Built and scaled **NodeJS** backend services supporting **200K+** users using **MongoDB**.
• Developed **GraphQL** APIs with **Apollo GraphQL**, improving data-fetching performance by **35%**.
• Integrated **6+ third-party services** including **Shopify**, **Zendesk**, and **Razorpay** to streamline business workflows.
• Implemented real-time features with **SocketIO** and optimized **MongoDB** queries.
• Led backend performance optimization, reducing server load by **20%** through scalable architecture improvements.
Tech Stacks: NodeJS, JavaScript, MongoDB, Apollo GraphQL, SocketIO, PassportJS, OAuth, Third-party integrations

January 2022 – September 2024
Remote | Bengaluru, IN

Software Developer
Mobillor Technologies Pvt Ltd
• Created vendor onboarding modules, reducing onboarding time by **60%**.
• Integrated ERP systems, improving client workflow efficiency by **~25%**.
• Revamped auth logic, decreasing login errors and access-related tickets by **30%**.
Tech Stacks: NodeJS, JavaScript, MongoDB, Third-party integrations

February 2021 – December 2021
Remote | Bengaluru, IN

SKILLS

Back-end:	NestJS, NodeJS, ExpressJS
Languages:	JavaScript, TypeScript
Databases:	MongoDB (Mongoose), PostgreSQL (TypeORM)
Tools & Technologies:	AWS S3, Redis, Kafka, PassportJS, OAuth, Puppeteer
Developer Tools:	Git, GitHub, GitLab, Postman, VS Code
Testing:	Jest (Unit Testing)
Others:	Microservices, RESTful Web Services
Soft-skills:	Excellent communication skill, Team Work Spirit, Leadership skill

EDUCATION

Master of Computer Applications (MCA), *RGPV University, Bhopal*
A graduate with an aggregate of 8.35 CGPA having good understanding of Software Development Life Cycle.

Bachelor of Science in Computer Science, *Vikram University, Ujjain*
Graduated with 63.15% and gained foundational knowledge of programming, databases, and computer science concepts.

Higher Secondary School, *MPBSE, Bhopal*
Completed Higher Secondary education with 76.20%.

High School, *MPBSE, Bhopal*
Completed High School education with 76.16%.

PROJECTS

Macha AI, *AI-powered customer engagement platform enabling real-time conversations and intelligent automated responses.*
Tech Stacks: NodeJS, ExpressJS, MongoDB, SocketIO, REST APIs, PassportJS, OAuth
• Integrated OpenAI APIs to generate smart replies, reducing manual intervention by 40%.
• Designed and developed the backend from scratch, improving system throughput by ~35% through optimized database queries.
• Implemented real-time messaging with SocketIO, increasing user engagement and retention by 20%.

SkipperFit, *Fitness management platform for appointment scheduling, virtual consultations, and payment processing.*
Tech Stacks: NodeJS, ExpressJS, MongoDB, GraphQL, REST APIs, PassportJS
• Developed appointment scheduling and analytics features, increasing booking rates by 25%.
• Integrated Razorpay, Stripe, Zoom, and Google Calendar, reducing appointment no-shows by ~18%.
• Streamlined multiple third-party integrations to deliver a seamless user experience.

LICENSES & CERTIFICATIONS

Back End Development and APIs, *JavaScript, NodeJS, ExpressJS*
Link: <https://www.freecodecamp.org/certification/devrakeshvsv/back-end-development-and-apis>

JavaScript Algorithms and Data Structures, *JavaScript*
Link: <https://www.freecodecamp.org/certification/devrakeshvsv/javascript-algorithms-and-data-structures>

ACTIVITIES & ACHIEVEMENTS

Instructor
Taught programming fundamentals and mentored junior students in coding and problem-solving.
